"THE

AND  
THE

From CHARLES KLEIN'S  
Famous Dramatic Success

WITH no other woman than a woman's wit, she entered the arena against the Son of his business who was winning her father for his own selfish interests. There must have been a woman way out. Yet here? How could she stem-mould break the strength of this man of power? The very heights of drama are reached in this compelling play of life and love.

Ritter, Welcome Address in behalf of Courts, Miss M. M. Smith, Responses in behalf of Grand Lodge and Grand Court, Mrs. A. N. Prince, Sherman. Introduction

Grand Chancellor and Grand Worshipful Master will be given their first glimpse on many moments at the once famous Broadway outfit. Many seasons have passed since the bookish police grand jury took their turns and their coming remind us of

there is a spark of the old time poet that more characterized this old machine that Gardner's Park should be on tomorrow afternoon; the scene of a real ball game. Rev. Antonio may be a dark horse in the loop this season as names previously played with the delegates this warlike fatherly address and times and if Manager Davis comes in to the prediction, his club is in the running.

EQUAL RIGHTS ASSOCIATION OF TEXAS ORGANIZED. The Equal Rights Association of Texas was permanently organized in this city at its annual session held here Wednesday morning in Pythian Temple and elected the following officers: M. M. Rodgers and W. E. Ritter, presidents; J. C. Vance, Jr., Dr. A. N. Prince, Marshall, secretary and Dr. M. C. Cooper of Dallas, Treasurer.

An Executive Committee, one from each county was appointed. Question of better accommodation on rail roads and in waiting rooms was the

paramount issue discussed. A report from the committee previously appointed to confer with the Director General of Rail Roads at Washington was made and reported that they, upon their visit to Washington, were cordially received by the Assistant Secretary of Railroads and were given the assurance that the request in petition was reasonable and fair and would be given due consideration. The committee in question was Dr. H. W. Dugan and Dr. Shepherd, Marshall, Dr. A. N. Prince of Sherman.

Other measures were presented for discussion, but were referred to the Executive Committee, delegating its power to act.

The meeting was well attended; forty counties being represented. Adjournment was sent in order. The session adjourned to meet next year in Dallas.

ST. PAUL, N. E. CHURCH. Corner Burdett and Juliette Sts. Rev. J. W. Wessley, pastor. The second quarterly conference opened Saturday night at 8 o'clock. District Superintendent, Rev. D. L.

Leaf in this club:

Reports from the different organizations of the church showed a decided increase over the former. Out of 25 classes, all made excellent reports with the exception of one or two. The District Superintendant, Rev. D. L. Shepherd, gave a most helpful information respecting the Centenary Drive. Sunday morning at 9:30 Sunday school opened on time. Superintendents, teachers and students are striving to make St. Paul a number one school. Our school was also given with the presence of Messrs. Hiram Hawthorne, Sherman, and Dr. Smith, prominent church men of Waco, who made excellent remarks. At eleven o'clock the District Superintendent opened a burning message and addressed the brethren to all present. Reports League every Sunday evening at 7:30 o'clock. A wonderful welcome is extended to all. The night services are the best, thus closing one of the most successful quarterly conferences in the history of the district. Collection during the quarter \$17.00. ALLEN M. HARRIS, Reporter.

Governor Hogg, in his address at the graduation exercises at the University of Texas at Austin, on June 5, 1915, made a most interesting and timely address. He spoke of the importance of the education of the people, and of the need for a better system of education. He said that the people of Texas were not getting the best of the education that was available to them. ## TRAINING HELPS WORKERS TO HELP THEMSELVES.

Three-thousand of the industrial workers in America are handicapped by lack of proper training in their respective trades, according to the U. S. Training Service of the Department of Labor. The work of this "Innocent Third" of the population is to increase the efficiency of the one-fourth already properly trained. "Home Advantages" of Industrial Training are being distributed by this branch of the government.

Benefiting about a big increase in the number of workers in the United States is the following: 1. The careful analytical survey of the operations in the plant to ascertain where existing methods can be improved. 2. The formation of a definite program of training, either in a separate department or "on the floor" in direct connection with production. 3. The instruction of those workers who are most in need of it and the spreading of those in the most higher strata. A training department helps workers to help the government.
