REASON FOR BEING HOPFUL.

Those who scrutinize the happenings of this part of the United States for signs of a proving of their citizens for justice and fair dealing have doubts been much encouraged by several factors...

The press of the South almost unanimously has commended the action of Congress...

Civilized society exists for the prevention of the kind of crime in a community that must soon or late follow when laws are in force and are ignored.

When the mob forms, they express the best and the worst of the people to whom they are given.

Following close upon this announcement comes the declaration of a State Convention...

We are convinced that if there is any one crime more heinous than the others, it is that crime which strikes at the root of and undermines constituted authority...

Therefore, we believe that no federal action can be made to protect against such mob violence...

The double standard of morals which society passively permits is a crime in itself...

It is not that we are against the right of every citizen to express his opinion, but that we are against the right of any individual to express his opinion in a way that is not in accordance with the law.

It is proved that this is so. We are sure that the people are ready to accept the speedy end of lynching in America...

It is from the crystallizing of this opinion in an ever increasing number of minds that we have gathered the following facts...

FACTS ABOUT CITY DWELLERS.

The Governor of Missouri recently received the report of a committee of the State Board of Health...

200 families picked at random. 131, regular married couples, 185, common law, 12, divorcee, average of non-support...

THE MIRROR OF PUBLIC OPINION

"BETTER THAN EXCHANGES"

The renewed Atlanta Convention, under the inspiring influence of the late, noble attention to the case of two Negroes who have been found guilty of a crime...

The crime was committed last Friday morning, and by 1 o'clock the Atlanta case had been widely reported...
