SUBJECT Dallas Fire-Rescue's Public Safety Dashboard- December 2022

Dallas Fire-Rescue (DFR) finished the calendar year with 286,186 dispatches (26,284 for the month of December). As you are aware, DFR has a stated goal of 90% achievement of the metrics of EMS response within 9 minutes and Structure Fire Response within 5:20. While the Structure Fire metric was met at 90%, the EMS response remains below the goal at 84%.

We had 10 significant fires for the month of December, up from 9 in November. Our inspections and re-inspections were slightly decreased, but there was a slight increase in smoke detector installations. Our rescue unit hours of utilization (UHU) numbers have remained at just over 38%.

The increased EMS response times are caused by several factors, including heavy call volume and a transport rate that has maintained historically high numbers (over 60%). We will continue to monitor and make Operational adjustments, such as the Single Function Paramedic Program and the Emergency Response Review Project, to ensure we are able to meet our performance goals even with the increase in demand.
